Funding Year 5: 07/01/2002-06/30/2003

Dear Sir:

Please consider this a request for waiver, due to extenuating circumstances beyond our control. Form 471 was not filed by the Fennville Public Schools' Jan. 2002 deadline. The former district Technology Coordinator, John Freiberger, was removed from his position during this time. Mr. Freiberger had served as the district coordinator for 5 years previous to this. All details and responsibilities, including filing for necessary monies, fell under his sole supervision. Due to the reasons for his termination, Mr. Freiberger was not allowed onto school properties. He was also prevented from using any school technology or the use of any communication formerly under his jurisdiction. Upon contact with Mr. Freiberger, by the new technology directors, Mr. Freiberger was not cooperative. As an example of this non-cooperation he even refused to release any information of the whereabouts of materials already gathered, or passwords, etc., needed to file the above documents. In addition to these chaotic circumstances a new superintendent of schools and a new school board began operation in the Fennville School District. Duties, responsibilities and procedural know-how were all compromised for months while the district re-organized and re-directed its operations. New technology directors were not appointed until July 1, 2002. The Fennville School District, it should be noted, is a poor district, who depends upon monies such as the E-Rate to further serve its community's technology needs.

We respectfully request to be allowed to file Form 471 for Funding Year 5.  
Sincerely,

Iody Osbon/M. Klosner
